

Wax Blocks

LEONGY

Properties

Hardness 45-55 Shore hardness

Melting Point 116 °C

Density 0.89-0.93

Sharp-ability Excellent

Thermal decomposition residue <0.30%

Linear Expansion 0.5%

Indications:

Inlays, onlays, single crowns, multi-unit bridges of up to 16 units, abutments, partial dentures, wax-ups, model castings.
